

## eWiSACWIS Release 1.9 Notes

### Address Broker

6299	Incorrect Zip / Missing Data for 54935	When a user clicks the Verify Zip button for zip code 54935, the pop up message will now display the following cities: Fond du Lac, North Fond du Lac, and Taycheeda. North Fond du Lac, 54935 and Taycheeda, 54935 are now reference values in the WI City dropdown field.
------	--	--

### AFCARS

907	Change Selection Logic to use PLCM SETNG	For AFCARS reporting OPEP has requested that Placement Status be used to include or exclude out of home placements for the selection logic regarding placement setting.
-----	--	---

### Assessment

6644	Add Dt Sfty Asmnt to IA-PC > Safety tab	A Date of Safety Assessment field has been added to the Safety tab of the Initial Assessment - Primary Caregivers window. When a date is entered in this field, the system will automatically pre-fill the date in the Date of Safety Assessment field on the Results tab of the associated Safety Assessment window. Anytime this field is update on the IAPC window prior to approval the field on the associated Safety Assessment will be updated. Any time the Date of Safety Assessment field is updated on the Safety Assessment window the system will automatically update the same field on the IAPC window.
------	---	--

### Case Participant Information/Health

5975	bug in medical/MH window	The application now records and displays the name of the worker who updated the page as well as the date the update was performed on the Medical Profile tab of the
------	--------------------------	---

## eWiSACWIS Release 1.9 Notes

### Case Participant Information/Health

Medical Mental Health page.

### Case Visual Metaphor

6611	Payment Icon Filter - outliner and searches	Modified both the Desktop Outliner and Search page to display only Payments relevant to the county of the worker viewing the data. Workers with View All Counties security will still see all Payments for a provider and/or case.
------	---	--

### Close Case & Adoption Decree

855	NO Case Closure if placements have NO Discharge	All pre-adoptive cases with a request for closure into Adoptive Home cases for the reason "Adopted with Adoption Assistance" or "Adopted without Adoption Assistance" will be prevented from closure if the Legal status of "Adoption Finalized" is missing.
-----	---	--

### Close Case & Adoption Decree

7488	Case Merge batch abending; mult med profile record	Modified the case merge batch to identify the more recently updated medical profile row and retain that record.
------	--	---

### Collect/Determine Eligibility

6763	Medicaid Certification not processing correctly	When a user who is not authorized to approve medicaid certifications creates, fills out and completes (by selecting a 'Completed' radio-button) an amended medicaid certification, the system processes the certification properly and defaults the "State Approval Status" groupbox to "N/A", and the "MMIS Interface Status" to "Ready to Send".
------	---	--

## eWiSACWIS Release 1.9 Notes

### CPS Reports

6242	Online not displaying actual date/time of report	When an Assessment is created, the Report Date and Referral Date will display the date the report was received, not the date the report was screened in.
------	--	--

### CPS Reports

6467	Linking Page/Create Case	The Related People expando has been added to the casework listing displayed under the case record. The added functionality allows users to view the case participants without accessing the Maintain Case and Person Management pages. In addition to the name, the system displays the following information: Person ID, case participant status, DOB, Gender, DOB, SSN, Race, Ethnicity, primary address. Intake workers and supervisors are able to take advantage of this new feature on the Search page when linking intakes to existing cases.
------	--------------------------	--

### Document Plans

6301	Allow more space on CPE -family prog section	The size of the two narrative fields, Family Progress and Family Understanding, on the Family Progress tab of the Case Progress Evaluation page was increased to 30,000 characters each.
------	--	--

### Document Plans

6442	Cannot "Not Approve" plan termination	The system prevents the user from 'Not Approving' the termination of a case plan, adoption case plan, out-of-home safety plan, and permanency plan. The "Not Approve" radio-button on the Approval History page associated with plan termination is disabled. If the
------	---------------------------------------	--

## eWiSACWIS Release 1.9 Notes

### Document Plans

termination of the plan was initiated by mistake, the user will proceed with termination of the plan and then create a new plan.

### Family Assessment

6426	FA, domain 2,element 3 does not match print out	In the Family Assessment, when a user selects the Moderate Problems radio button on the Domain II tab, this selection will display correctly on the Family Assessment print out.
------	---	--

### Forms

6197	prefill incorrect worker	Fixed the JJ Assessment of Family template so the worker name pre-fills correctly. Previously the name of a worker in a different county could pre-fill in some situations.
------	--------------------------	---

### Foster Care/Out of Home Placements

6268	OHP window shows wrong Excpt Amt	The system now displays the same Exceptional amount whether the user accesses the Out of Home Placement page from the Outliner or through the Search page.
------	----------------------------------	--

### Foster Care/Out of Home Placements

6500	Change the wording on the out of home placement wi	The language on the OHP window was changed from "Does the agency have legal responsibility of the child at the time of removal?" to "Is the child under a court dispositional order and placed outside the home under this order in the last six months?"
------	--	---

## eWiSACWIS Release 1.9 Notes

### Foster Care/Out of Home Placements

6524 Rate Setting Type

Two new Foster Care Rate Setting types were added to the list of the existing values: "Birthday Update" and "Contract change". The FCRS type of "Birthdate Update" can be used to document changes in the rate due to a change in age. This value will be automatically selected by the birthday batch when creating a new FCRS associated with a new age-appropriate placement. The FCRS type of "Contract Change" can be used to document changes to the rates that occur as part of the annual rate changes for Treatment Foster Homes.

### Foster Care/Out of Home Placements

6525 Birthday Batch and Rate Settings

As the result of the enhancement, the birthday batch not only changes a child's placement but also generates a new approved Foster Care Rate Setting (FCRS) when the child moves to another age category on his/her birthday. The user will be able to open the template (in edit mode only) to incorporate the changes when appropriate. However, when the user closes the template and saves the changes, the template will freeze and will not be available for further editing.

### Foster Care/Out of Home Placements

6758 Display Basic Rate on OHP page  
for closed plcmnts

Modified the Out of Home Placement page so the monthly basic or daily rate displays for placements which have been ended. The displayed historical rate is based on the rate which was in effect when the episode was closed and should provide a more accurate historical record for a child's placement. Note that the Current Total Monthly Payment" field will continue to display "N/A" to avoid confusion.

## eWiSACWIS Release 1.9 Notes

### Foster Care/Out of Home Placements

7087	Addition Search Criterion	Workers will now be able to select up to 5 characteristics from Family/Provider Accepts when searching out a provider for placement.
------	---------------------------	--

### Gather/Monitor/Request Reimbursement

6707	Problems with FM04a08	The Pre-Two Year Deduction Report (FM04a08) has been modified to properly display negative numbers and calculate totals more in line with the State's business intent.
------	-----------------------	--

### Gather/Monitor/Request Reimbursement

6767	Audited Rates report for prior years	Created a new report, FM04a14 Pre-Statewide Reporting Group Provider Audited rates, for use by State fiscal staff to verify federal claiming amounts which were created prior to the Statewide Reporting Group standardized setup.
------	--------------------------------------	--

### Gather/Monitor/Request Reimbursement

7125	Payment Download page	The payment download page will no longer export the user-entered text description for one-time payments. Invalid characters were found in some database records which were causing errors during the export process.
------	-----------------------	--

### Gather/Monitor/Request Reimbursement

7432	Batch reports modified for SG are erroring	n/a
------	--	-----

## eWiSACWIS Release 1.9 Notes

### Help File

6274	No Help Topic for Family Needs and Strengths Reass	The Help topic for the Family Strength and Needs Reassessment has now been added.
------	--	---

### Home Provider

3893	Zero out and inactivate a provider	When trying to inactivate and zero out all services for a home provider, the user will no longer receive the message "The current Row is being updated by someone else - please refresh and try again." when saving the window.
------	------------------------------------	---

### Home Provider

4591	No error report on B-day batch sent to workers	Updated the Birthday report with a new section to show children who are in foster care or treatment foster care placements with the county but are in the wrong age service based on their current age.
------	--	---

### Home Provider

6016	Remove Parent 1	The system correctly updates the first and last name of the home provider member assigned a role of 'Parent 1' after being re-activated throughout the system.
------	-----------------	--

### Home Provider

6358	Page reload after security message	Fixed an error on the Provider Maintenance - Services page. Previously if a user selected to view all counties' services, and did not have the security for this action, the page would go blank and freeze. Now the page will still be operable, but no services will be retrieved. Workers with View All Counties access will be unaffected.
------	------------------------------------	--

## eWiSACWIS Release 1.9 Notes

### Information & Referral

7188	Application Error is thrown in specific work flow.	An application error will no longer occur when saving and Information and Referral window.
------	--	--

### Issue/Reconcile Checks

7044	Check printed batch crashes on empty file	Modified the check printed batch to handle blank files from counties. An error will be written to the log file, but no other notification is created.
------	---	---

### Legal Consult

6945	Terminated Perm Plan data in Court Report	Permanency plans that are "Not Approved" will no longer prefill permanence goals into pending court reports.
------	---	--

### Licensing Home Providers

2384	Servies for non-designated counties do not copy	When re-licensing a provider, services for non-designated counties will now copy over to the license window.
------	---	--

### Maintain Services

7043	Maintain services page	<p>Added funtionality and a new drop-down to the Maintain Service Types and Rate page. When creating new, age specific services at the county level, workers will now be required to select the 'Next Service Type' into which a child will age-up. The drop-down will only be enabled when the service setup meets specific criteria and will display only those services in the same service category as the service being created.</p> <p>For workflow reasons, workers creating a whole new set of age specific services should do so starting with the</p>
------	------------------------	---

## eWiSACWIS Release 1.9 Notes

### Maintain Services

15+ age service first, and work backwards to the 0-4 age service last.

This change will ensure that age specific services created by counties will not be skipped by the Birthday batch.

### Maintain Services

7311

Maintain Service Types

Modified the caching behavior of the system so that newly created Service Categories will be displayed and usable following the first available server reset. Service Categories will still need to be requested through the help desk but should be available for use more quickly and reliably.

### Manage Trust Accounts

7374

KIDS daily batch provider data not resetting

Fixed a batch issue which was linking incorrect SSN and DOBs with Kinship providers that were incorrectly setup as private providers. The batch will now reset those field values for each provider, even if they are empty.

### Mobile Computing

5379

Case Notes save/reopen.

Fixed an issue where a Case Note would become inaccessible if user clicked "Close" button and saved the note via the pop-up.

### Mobile Computing

6564

Checking Out Cases

Tablet PC users will no longer receive a Javascript error if they opted to check out cases, but then did not choose any. A validation message will display but the user will

## eWiSACWIS Release 1.9 Notes

### Mobile Computing

be able to continue their work.

### NCANDS

6881	B-IN0302-NCANDS-CHILD-FILE	Each run of the NCANDS file will have a unique name when run - based on the encryption and unecryption parameters.
------	----------------------------	--

### Person Management

2632	Person Address and Out of home placement	When a child is placed with a provider, the system will automatically update the child's primary address to that of the home provider in which they are placed. When a placement is ended with a discharge reason, the address will revert to the child's home address.
------	--	---

### Person Management

6879	AKA Functionality	When a First and/or Last Name has been updated and saved on the Person Management window, the system will allow users to automatically create an AKA name row on the AKA Names tab.
------	-------------------	---

### Person Management

7281	System does not allow creation of 1st nm w/spaces	Fixed the Last Name validation check to make sure that it can contain letters, hyphens, spaces or apostrophes.
------	---	--

### Private Provider

7277	Cannot insert 9-digit zip for priv prvdr	Corrected the Private Provider page so 9-digit zip codes may be entered and saved.
------	--	--

## eWiSACWIS Release 1.9 Notes

### Process Payments & Purchase Requests

4807	include b-day pmnts in Pre-Payment rpt	Modified the Pre-Payment Verification report (FM0103) to predictively show payments which will result from children having birthdays in the current month. The report now has a fifth section showing Payments Affected by Birthdays. The report run dates and distribution have not changed.
------	--	---

### Process Payments & Purchase Requests

6814	Payment request page and am_nontrust	Corrected an issue in which one-time payments with admin amount components were resulting in incorrect claimable amounts.
------	--------------------------------------	---

### Reference Tables

6466	Addition to Countries list	The Cayman Islands and the United Kingdom have been added to the Countries drop down field. Luxembourg is now spelled correctly.
------	----------------------------	--

### Risk/Need Assessment

5380	Safety Assessment save/re-open	Fixed an incident where the Safety Assessment page didn't actually close when a user selected Close and answered Yes to the Save Changes pop-up.
------	--------------------------------	--

### Search

6027	Search Utility	The search functionality has been enhanced with a new slider tool which allows a worker to conduct a more precise search based on the spelling of the Case, Person, Provider, or Worker name. Workers can expand or narrow the search results by moving the tool from Low to High. The following search pages will still have the
------	----------------	---

## eWiSACWIS Release 1.9 Notes

### Search

Sounds Like checkbox in release 1.9. Provider Service Search, Closed Cases Eligibility Search, Closed Cases Trust Account Search. For the Adoption Search program, Sounds Like is still on Grand Search, Select ARSP Link, and Order of Adoption Search. The Additional Criteria has been removed and is now included as fundamental search criteria at the top of each search page. The AKA Name fields have been replaced with the Incl. AKA checkbox.

### Search

6127                      Provider re-payment editable through search.

When a user accesses a provider window from search, the Provider Repayment Method pop up window will be uneditable.

### Search

6465                      Person - Search

As part of the new search page functionality users now have the ability to expand the case work listing and view case work items on the Person search tab.

### Security

6544                      Template Action Labels

All the individual actions on the security page that are related to the launching of a template or notification are re-labeled to include the word 'template' or 'notification'.

### Security

6647                      Maintaining User Groups

Corrected an issue which failed to save data changes made on the User Group Detail page.

## eWiSACWIS Release 1.9 Notes

### System Wide

3275	time stamp	The server timestamp and the current time will now match.
------	------------	---

### System Wide

6646	Issues with Oracle 9i driver	The database was successfully transferred to 9i platform.
------	------------------------------	---

### System Wide

7004	Performance	Application Technical Performance Tuning for Assessment, Provider Service Search,
------	-------------	---

### Voluntary Services Referrals

7164	Intake issues- supervisor name	When a supervisor makes a screen in/out decision on a services intake, the supervisor name will no longer appear twice on the window.
------	--------------------------------	---

### Worker Assignment

6173	Assignment	Fixed an exploitable issue where a primary worker assignment could be closed for a case without creating a new assignment with a primary role. The system will now validate the assignment being created with a role of Primary before allowing an existing primary assignment to be ended. Note that Intake Supervisor assignments can still be transferred without violating the primary assignment requirement.
------	------------	--

### Worker Assignment

6192	Case Assignment Clean Up	First part of the cleanup for case assignments occurred as part of Release 1.8. Release 1.9 includes cleanup of
------	--------------------------	---

## eWiSACWIS Release 1.9 Notes

### Worker Assignment

inactivated workers assigned to intakes and providers.
